

Aylesbury High School | #AHSWalksTall

Developing uniquely talented young adults, who are independent, strong and confident

Thursday 21 May 2026

Dear Parent/Carer

Year 12 Future Success Day - Friday 3 July 2026

Friday 3 July is an Activity Day for all AHS students; there are no subject lessons that day and students will be taking part in a range of activities. All Year 12 students will take part in **Future Success Day**. This is an integral part of our Next Steps programme, which supports students as they research future opportunities and make plans for life after AHS.

Future Success Day begins with a talk by a representative from the University of Exeter on *Writing an Effective Personal Statement*. Students will then rotate around three sessions covering making a UCAS application, starting to write a personal statement or CV, and interview skills. There will be an alternative to the UCAS application session for students who do not plan to apply to university. During the afternoon, students will attend two from a selection of opt-in workshops on topics such as student finance, gap year opportunities, applying for apprenticeships and choosing a course/university. We are very grateful to the range of speakers who plan to join us on the day.

We will shortly be sharing details with Y12 and details about signing up for the afternoon session.

Please do not hesitate to contact me if you have any questions about the day.

Kind regards

Jo Quesne
