

17 June 2025

Dear Year 12 Students and Parents/Carers

### **Opportunity to purchase access to Medic Mind UCAT Question Bank**

This is an opportunity for students planning to apply to study Medicine or Dentistry who will be taking the UCAT (University Clinical Aptitude Test) this summer for entry to university in 2026.

Medic Mentor is a national medical social enterprise that supports students applying for and studying Medicine and Dentistry. It has negotiated a deal to offer students high quality and affordable resources to support preparation for UCAT exams this year. Having completed an evaluation process, it selected a UCAT question bank offered by Medic Mind. For £25.08 per student, Medic Mind will provide unlimited access to their comprehensive UCAT question bank until 1 October (which is after the final test date). Once payments have been processed, students will receive log-in details for the question bank.

If you would like to purchase access to the Medic Mind question bank, please make the payment of **£25.08** via ParentMail by **25 June**; the reference is **24-YUCAT Year 12 UCAT question bank**.

For anyone seeking teaching in addition to UCAT question bank access, Medic Mentor have introduced a UCAT School Tutoring Package that can only be purchased via schools. This includes access to the Medic Mind question bank along with 6 weeks of daily UCAT live virtual teaching (30 hours of teaching) through Mentorverse for £108.90.

The 6-week programme delivers 1-hour live tutoring sessions each day in a large group setting, which Medic Mentor believe offers a more structured and effective approach than one-off long teaching days. Students can ask questions, review recorded sessions, and benefit from guidance tailored to their needs. Key dates for the daily teaching access are 21 July - 29 August.

If you would like to purchase access to the UCAT School Tutoring Package, please make the payment of **£108.90** via ParentMail by 25 June; the reference is **24-YUSTP**.

Students in receipt of the 16-19 Bursary may apply to have the relevant payment met from this funding.

By making the payment, you are consenting to the school sharing your name and email address with Medic Mentor / Medic Mind in order to create your log-in.

I must emphasise that there is no requirement to buy materials to support preparation for the UCAT exam; free official practice materials are available on the UCAT website [here](#). However, we are aware that some students do buy resources and so are passing on this opportunity which has been negotiated by Medic Mentor to keep the price as low as possible.

Please do not hesitate to contact me if you have any questions.

Kind regards

Mrs Michelle Sutton
