Dear Parent/ Carer

Ref: Design and Technology Project Work Contribution – Year 7

We are continually improving the projects that your daughter undertakes at Aylesbury High School. In preparation for Key Stage 3 project work the department has purchased materials and consumable items for all pupils in Year 7-9. These items have cost a considerable sum of money and we seek your support in making a voluntary contribution towards the cost. Your daughter will of course be able to keep and use these projects at home. The breakdown of the project covered by this contribution:

Year 7

- Speaker docking station
- Maze

Year 8

- Mood lamp and structures

Year 9

- CAD/CAM game project

Total – £20

We are sensitive to the many financial demands that are made on parents but our aim is to maintain the high standards of attainment and motivation of our pupils, without your support this would not be possible. In cases of family hardship, no contribution will be expected.

Please make your payment via ParentMail by Friday 7th November. We thank you in advance for your continuing support in helping us to maintain the highest quality of provision.

Yours faithfully,

Mr Mark Potkin
STL Design, Technology and Engineering
